## DETAIL ACTION

### *Examiner's Amendment*

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as following:

In the claim, claim 38, line 1, delete "310" and insert --31-- after "claim".

The above noted amendment has been added in order to correct a typographical error in claim language.

### *Reasons For Allowance*

2. Claims 30-55 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a ballast device and method as well for regulating power to a load module by comprises an assistant power circuit receiving from an external voltage and generating an outer working voltage, a transformer module for converting the external voltage into an output voltage applied to the load module and inducing an actual load current flowing through the load module, a micro control unit which receives the outer working voltage and generates a predefined load current, and a PWM control unit, which comprises a PID control module that receives and operates on the predefined load current and the actual load current in order to generate a control signal to the transformer module to modulate the output voltage as required in claims 30, 40 and 49.

4. The remaining dependent claims are allowable for at least above reason.

5. The prior art made of record and not relied upon is considered pertinent to applicants'
